The diagram illustrates a sequence of seven stages, each represented by a set of horizontal lines. The first stage has a solid line above a dashed line. The subsequent stages have a solid line above a dashed line, with a solid line below the dashed line. The stages are labeled with the Greek letter θ below them.

54	RANKIN ESD #1	1.000000

The diagram illustrates a sequence of seven stages, each represented by a set of horizontal lines. The first stage shows a solid line at the top and a dashed line below it. The subsequent stages show the solid line moving down towards the dashed line, with the dashed line also moving down. The stages are labeled with the Greek letter θ below them.

The diagram illustrates a sequence of seven stages of a process. Each stage is represented by a set of horizontal lines. The first stage has a solid line at the top and a dashed line below it. The subsequent stages show the solid line moving down towards the dashed line, with the dashed line also moving down. The stages are labeled with the Greek letter θ below them.

The diagram illustrates a sequence of seven stages, each represented by a set of horizontal lines. In the first stage, there is a solid line at the top and a dashed line below it. In the subsequent stages, the solid line moves down towards the dashed line, and the dashed line also moves down. The stages are labeled with the Greek letter θ below them.

The diagram illustrates a sequence of seven stages of a process. Each stage is represented by a set of horizontal lines. The first stage has a solid line at the top and a dashed line below it. The subsequent stages show the solid line moving down towards the dashed line, with the dashed line also moving down. The stages are labeled with the Greek letter θ below them.
